### 2019 Golf R Service Reminder Reset

#### Resetting the service reminder display

If the service was not performed by an authorized Volkswagen dealer or an authorized Volkswagen Service Facility, the service reminder can be reset as follows:

- Switch off the ignition.
- Press and hold the **0.0** button in the instrument cluster.
- Switch on the ignition.
- Release the **0.0** button.
- One after the other, the following messages appear in the display:

**Reset oil change interval?**

**Reset inspection interval?**

- When you see the message for the interval you want to reset (either oil change or inspection), confirm the request by pressing the **0.0** button in the instrument cluster. A confirmation message appears in the display when the service reminder has been reset.

Do **not** reset the service reminder between service intervals; otherwise incorrect information will be displayed.

**For current fluid capacity charts, please refer to the Maintenance section in Elsa.**
