

SS 1034577 SS 1034577 WST Cab drone / vibration / tapping Under acceleration w/Eaton Manual Trans

Applicable Vehicles

All Western Star Models with Eaton Manual Transmission

Concern

Cab drone / vibration / tapping Under acceleration

Solution

Follow the instructions below to reduce the noise coming through the clutch linkage.

Step 1: Pinch the ears together where the linkage pivots to reduce side play

Step 2: Weld the pin to eliminate movement

Step 3: Drill tube and add a grease Zerk

Step 4: Grease pivot
