

Service Bulletin

Bulletin No.: 16-NA-058

Date: November, 2019

TECHNICAL

Subject: Brake Grinding Noise Heard and/or Grooved Rotors - 1st Design / 2nd Design Brake Caliper Assemblies

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Buick	Regal	2016	2016	SOP	G9120774		

Condition	Some customers may comment on a grinding noise heard when applying the brakes. Upon further inspection, a technician may find the brake pads are worn and the rotors have grooves.
Additional Options	BRAKE SYSTEM-POWER, FRT & RR DISC, ABS, 17" (RPO J61)
Correction	Replace the 1st design brake calipers and brackets with the 2nd design and install new brake pads. Note: Replace rotors as needed due to being grooved.

Service Procedure

Refer to *Front Disc Brake Pads (J60, J61)* and *Front Brake Caliper Replacement (J60, J61)* in SI.

Parts Information

Refer to the electronic parts catalog (EPC) for the correct parts information.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
