From Remanufactured Parts Operations

Subject Headlights Requested for Recycling

Effective immediately, we will begin collecting the headlights listed on the Service Bulletin A19-042, Warranty Extension: Daytime Running Lights LEDs.

Please note that even though the warranty call-in request will only show one requested part number, if you have replaced both headlights, please send both.

In some instances, the failed part number will not match the actual part, please send the parts you removed from the vehicle, regardless.

If you have any questions, please contact Remanufactured Parts Operations at 1-888-997-7278 Option 1
