

New Release

Incandescent 12/16 lamp monitors are being discontinued immediately. Recent changes to body content adding 4" LED stop/tail/turn lamps as standard for Type A & Type D products render the incandescent lamp monitors unable to provide full monitoring capabilities.

In-house orders with incandescent 12/16 monitors will be receiving an LED monitor at time of production build.

Features and Benefits

Use of LED lamp monitors allows full 16 lamp monitoring capabilities for customers who order them. Lamp monitor indicators represent actual conditions found on the vehicle.

Ordering

Feature	Description	Action
B319003000	LIGHT MONITOR - 12/16-LIGHT SYSTEM	Discontinued.
