

New Release

The Next Generation Perimeter View 360° (PV360) brings enhanced technology to our C2 Saf-T-Liner. The Customer focused features now includes a **Setup Menu** that allows customizable views & trigger options based on your state or district specifications, **DVR Ready Output** featuring Quad Screen Raw video output, and **Improved Hardware** with enriched views. Since the new ECU uses existing cameras, it's **Easy to Upgrade** to the legacy harness via an adapter.

Clearly see what matters most.

Features and Benefits

DVR READY OUTPUT

Quad Screen/Raw Video Output - shared with existing or add-on DVR equipment

ALL NEW SETUP MENU

Ordering

The Next Generation 360° Perimeter View (PV360) hardware will be installed through a running change on orders built on or after 9/17/19 that have selected option D423600000. Approval of change order requests to add this option will be subject to lead time constraints for electrical harnesses.

Current pricing for option D423600000 will not be adjusted at this time.
