

Temporary Suspension of Auto – Reversing Door Option

Product Awareness
Bulletin #039
11/01/2019

Temporarily
Suspended Content

The associated options for the auto-reversing entrance door feature shown below have been temporarily suspended effective today November 1st, 2019. DTNA Technical Compliance Committee has identified additional standards to measure the system against. We do not have any information regarding future availability for this feature at this time. There will be more information sent to you as soon as it becomes available. All units in the backlog configured with this feature will need change orders performed in the coming days to remove the option(s). The plan for the units on ground that have already been built or started has not been finalized.

Ordering
