

New Release

Beginning Tuesday, December 3, when lettering is adjusted on a committed quote, that action will cause the quote to go into CHANGE status. As a result, the user will need to forward the quote to the Commit to Order queue for any lettering changes made through the lettering program.

Features and Benefits

This change, although it creates an extra step in your process, will result in better system alignment between the lettering program and our bill of material.

With this change, all lettering updates will be forced to go through the change order process and treated as a true change, resulting in a cleaner process.

Ordering

Please take note of the quotes in your respective queues and forward any quotes in change status to Commit to Order at all times.

Again, this change will begin on Tuesday, December 3.

Please email Jenny Shultz with any questions @ jenny.shultz@daimler.com.
