

We are excited to announce that DETROIT™ has standardized the engine piston for all DD5 horsepower ratings. This product improvement allows a 200 HP rated DD5 engine to be uprated up to 240 HP without requiring additional hardware changes. This standardization went into production on DETROIT™ DD5 200 HP rated engines manufactured after 9/27/2019.

- All DD5 engines manufactured after 9/27/2019 including 200 HP, 220 HP and 240 HP will have the standard engine pistons
- Standardization of pistons allows horsepower uprate without hardware changes to the DETROIT™ DD5 engine block components
 - Detroit DD5 200 HP can be uprated to 220 HP without hardware changes
 - Detroit DD5 200 HP can be uprated to 240 HP without hardware changes
- Standardization of components improves service processes for technicians who maintain vehicles
- Standardization of components strengthens the supply chain and manufacturing processes by reducing complexity

Authorized DETROIT™ service technicians can very easily perform a horsepower uprate in minutes using Virtual Technician. Contact DETROIT™ through our DTNA Technical Support line at 1-844-271-8798 to purchase the VIN-specific parameters required for your vehicle.
