

All new C2 Saf-T-Liner orders for LPG vehicles powered by PSI 8.8L Driveforce, and equipped with an air brake package, will include Electronic Stability Control (ESC) as standard equipment. This is effective for new orders that meet the above criteria and are received on 12/4/19 and later. Change orders are not allowed on current orders in our backlog due to material lead time constraints.

ESC for hydraulic brake equipped C2 units powered by PSI 8.8L Driveforce is under development with the model year 2020 PSI engine change and is expected to be available in Q1 2020.

Electronic Stability Control is a vehicle safety system that automatically intervenes in events of directional instability that could lead to loss of vehicle control or rollover.

Sales option FL-49B-004 ELECTRONIC STABILITY CONTROL will be added on new orders that meet the criteria below:

- C2 Saf-T-Liner powered by PSI 8.8L LPG Driveforce Engine
- Order configured with an air brake package
- Order committed 12/4/19 or later
