

**No.: 20CSA-01**  
January 20, 2020

TO: Service Locations

FROM: Service Systems Development

SUBJECT: **Service Information Bulletin (SIB) Expiration Policy Change**

### **SUBJECT DETAIL**

Detroit Service Information Bulletins (SIBs) will now have a 60-day expiration, starting on the release day of the bulletin. The SIB content will be deleted and no longer available after the expiration date has passed.

The intent of a SIB is to notify the service network of a major change to one or more service procedures. Do not save SIBs nor reference them for repairs, as they are uncontrolled and never updated.

The service manuals are continuously updated, and the respective manual should always be used for the latest service information.
