

Service Campaign T4L Dealer Best Practice

Date: January 2, 2020

Attn: Dealer Principal/General Manager/Service Manager/Parts Manager

Subject: Service Campaign T4L: SONATA (DN8) IAU IDENTIFICATION PROCEDURE (TSB #20-01-001H) – v1

Updates To This Document	Date
<ul style="list-style-type: none"> Initial communication to dealers. 	01/02/20

***** Dealer Stock and Retail Vehicles *****

Dealers must perform this Service Campaign on all affected vehicles prior to customer retail delivery and whenever an affected vehicle is in the shop for any maintenance or repair.

Affected Vehicles

Hyundai is conducting a Service Campaign to obtain the Identity Authentication Unit (IAU) identification number.

The affected vehicles include:

- All 20MY DN8 Sonata Equipped with Smart User Feature

Hyundai is initiating this action to ensure the quality of its vehicles and the continued satisfaction of Hyundai customers.

Description

On certain Sonata (DN8) vehicles equipped with smart user features, the registered Hyundai app and the digital key card may not open the doors or start the vehicle when using these features.

Service Action

Reservation – Always check the Vehicle Information Screen in WebDCS for open campaigns and recalls, and advise the customer on time requirements.

- Remind the customer to bring their key fob for the service.

Readiness – Review this announcement and the accompanying FAQs with all Service and Parts staff including Reservationist/BDC. Also, complete all applicable training, check your reservation capacity settings (you can set separate capacities for every recall/campaign), confirm email addresses for campaign appointments, and that you have all necessary tools, campaign parts and shop equipment as needed.

Reception – Always check the Vehicle Information Screen in WebDCS for open campaigns and recalls, and print a copy for technicians. Provide SRC or an alternative vehicle, as needed. If a customer has declined the campaign, note this on the repair order and request the customer's signature next to the statement.

- Always try to provide an equivalent or similar SRC

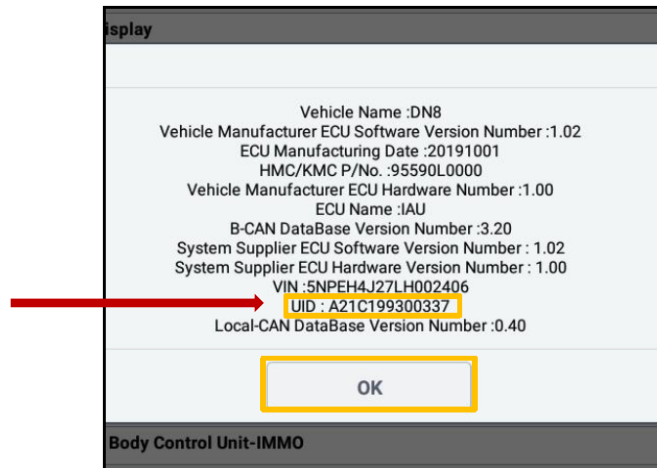

Repair – Always plug in the GDS before starting the repair. Make sure to complete an MPI on all vehicles and Quality Control your work.

- Ensure the GDS tool is properly secured in the OBD II port and function light illuminates before proceeding further.

- Make sure to take a photo of the UID number shown on the system identification screen to submit with the claim.

Return – Review all completed campaign and repairs to answer any customer questions. Also, schedule the customer's next service.

Reconnect – Follow up for customer satisfaction.

Parts

No additional parts are required to complete this campaign.

Customer Notification

None

Thank you for your prompt attention to this important matter and continued commitment to Hyundai customers.
