Volkswagen

2020 Jetta Service Reminder Reset

Resetting the service reminder display (analog instrument cluster)

If the service was not performed by an authorized Volkswagen dealer or an authorized Volkswagen Service Facility, the service reminder can be reset as follows:

- Switch off the ignition.
- Press and hold the **0.0** button in the instrument cluster.
- Switch on the ignition.
- Release the **0.0** button.
- One after the other, the following messages appear in the display:

Reset oil service?

Do you really want to reset inspection?

- When you see the message for the interval you want to reset (either oil change or inspection), confirm the request by pressing the **0.0** button in the instrument cluster. A confirmation message appears in the display when the service reminder has been reset.

Do **not** reset the service reminder between service intervals; otherwise incorrect information will be displayed.

For vehicles with the Volkswagen Digital Cockpit, there is a Service menu.

Opening the Service menu

Figure 1: Right side of the multi-function steering wheel: Controls for the menus and information in the instrument cluster display.

- Turn on the ignition
- Press and hold the **OK** button on the multi-function steering wheel (Figure 1) until **Driving data** menu appears. **Range** should automatically appear.
- Press and hold the **OK** button on the multi-function steering wheel for about 4 seconds and then release. The Service menu appears in the instrument cluster display.
- Push the arrow up and down buttons and select either the Reset Oil Service or Reset Inspection. Press the **OK** button.
- Depending on which reset function is selected, the following message will display: Reset Oil Change? or Reset Inspection?
- Press the **OK** button to reset.
- A confirmation message appears in the display when the Reset Oil Service or Reset Inspection has been reset.

Do **not** reset the service reminder between service intervals; otherwise incorrect information will be displayed.

For current fluid capacity charts, please refer to the Maintenance section in Elsa.
