Applicability

YEAR(S)	MODEL(S)	ADDITIONAL INFORMATION
2020	Supra	

Introduction

Some 2020 model year Supra vehicles equipped with navigation require a new process for updating map data. This procedure is unique to Supra and is available to customers at any time during their map update service period. Updated map data is released periodically, and there is no activation key/code required to update the vehicle map during the valid map update period. Follow the Repair Procedure in this bulletin to update the vehicle map data.

NOTE

This procedure does NOT apply if the map update period has expired.

*Essential SST.

NOTE

Additional SSTs may be ordered by calling 1-800-933-8335.

Navigation Update Procedure

USB Flash Drive Preparation Procedure

1. Click the hyperlink in the table below to navigate to the map data download page.

MODEL	MODEL YEAER	APPLICABLE FILE ON THE USB DRIVE
Supra	2020	Supra Map Data Downloads

NOTE

Use a 64 GB USB flash drive or larger to store the applicable NEW map data file.

2. Select the applicable NEW map data file and download.

NOTE

The file size is larger than 30 GB and may take extra time depending on connection speed.

- 3. Format the USB flash drive.
 - A. Insert the USB flash drive, right click on drive file, and select Format.
