Technical Information

Date: February 2020
Bulletin #: 2648
Campaign #:
Supersedes:
Section: 10

Model:

Subject: Ferrari Predictive Maintenance – Intervals and deadlines for scheduled maintenance activities

Please note that even though the **Ferrari Predictive Maintenance** has now been launched, Authorized Ferrari Dealers are still responsible for making sure that all maintenance procedures are performed at the correct intervals and within the respective deadlines, and all unscheduled maintenance is performed promptly when necessary, in order to help keep Ferrari vehicles in proper working order.

For all vehicles covered by the **Ferrari Predictive Maintenance** program, the maintenance schedule includes the following two types of activity – Fig. 1:

A. Checks/maintenance performed at fixed intervals (annual or every 20,000 km)

Activity carried out at the fixed intervals indicated by activation of the “Service” indicator lamp on the instrument panel.

B. Changing engine oil and engine oil filter

Activity conducted at variable intervals calculated by the predictive maintenance algorithm of the Ferrari Predictive Maintenance program.

Service Entry:

Mileage in KM: 1687

Mileage in Miles: 1048

Forecasted Date IN: 11/12/2019

Description	Traffic Light	Reason for Inclusion/Exclusion	Earliest Permissible date for dealer reimbursement	Earliest Permissible Date for Customer	Latest Permissible Date for Customer
Controllo annuale o 20.000km - basic	Green		14/10/2019	14/11/2019	14/01/2020
Dynamic engine oil and oil filter change	Red	Date of Service must be in between	14/09/2020	14/10/2020	14/12/2020

Ferrari North America

- IMPORTANT -

The date for replacement of the engine oil and the relative filter, calculated by the Ferrari Predictive Maintenance program algorithm and indicated in the box (C, Fig.1), can never be later than 2 years or 12,500 miles/20,000 Km (whichever limit is reached first) after the previous replacement.

Should the date indicated in the box (C, Fig.1) exceed the time and/or mileage limits indicated above, or if the electronic Ferrari Predictive Maintenance system is not available, it will be necessary to observe the scheduled maintenance intervals specified in the **Manufacturer's Warranty Booklets** of each Ferrari vehicle included in the **Ferrari Predictive Maintenance** program.

In the event of any of the issues described above, please report the case by opening a Ferrari ICT ticket, to request authorization to carry out the relative scheduled maintenance procedure necessary and obtain subsequent reimbursement.

Thank you for your co-operation.
