Code	Description
T4	Interior moldings and fasteners/Interior fasteners loose, poor fit, warped

Text

DESCRIPTION:

If the handle for the storage box under drivers seat feels loose, see Service.

SERVICE:

The spring can come loose if the driver tries to grab the handle but reaches too far and grabs under the handle. Just push the spring in place again, use a finger or screw driver or similar. It is not needed to remove the box. See “PictTJ35399.pdf”. The spring is in the correct position in the picture. Inform the customer.

****Warranty claim info:***

No warranty claim accepted for a job described in this TJ

VEHICLE REPORT:

Yes, please submit a Vehicle Report if the service solution described in this TJ has no effect. Use concern area "Vehicle Report" and sub concern area "Support not needed", use function group 8529.
