

#### 60 Panoramic sunroof noises

60 20 40 2054203/4 March 12, 2020. Supersedes Technical Service Bulletin Group 60 number 19-37 dated November 18, 2019 for reasons listed below.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment	
Q7	2017	All	Not Applicable	
Q7	2018	000001 - 044739	Not Applicable	

### Condition

REVISION HISTORY				
Revision	Date	Purpose		
4	-	Revised Warranty (Updated Claim Type)		
3	11/18/2019	Revised Warranty (Updated Claim Type)		
2	08/09/2019	Revised Required Parts and Tools (Added sunroof panel screws)		

#### **Customer states:**

• Noises are heard in the panoramic sunroof particularly while driving over rough roads. These noises occur mainly when the sunroof glass panel is closed.

#### **Technical Background**

The panoramic sunroof drive mechanism may be inadequately lubricated or not lubricated at all.

#### **Production Solution**

The lubrication strategy and amount corrected in production.

#### Service

The sunroof mechanism on the Q7 (model 4MB) is maintained using a cleaner and lifetime lubricant unique to the sunroof frame on this Q7 model compared to the previous Q7 model.

Figure 1. All purpose cleaner: G 065 567 A2.

Figure 2. Special lubricant: G 060 567 A2.

The only maintenance materials approved for use on the sunroof frame are the cleaner and lubricant specified above. Alternative cleaners and lubricants used on this sunroof mechanism may cause permanent mechanical damage and worsen the level of noise from the sunroof mechanism.

If the sunroof mechanism has been lubricated with an unapproved lubricant it must be thoroughly cleaned off of the mechanism components using the cleaner G 065 567 A2 and lubricated with the approved lubricant G 060 567 A2.

1. Remove the front glass panel using the procedure specified in the repair manual. The mechanism can be moved slightly towards the rear for better access to the areas that require lubrication.

### UNote:

#### Perform this procedure to both sides of the sunroof slide and tilt mechanism.

7. Reinstall and adjust the front glass panel using the procedure specified in the repair manual. Fully open and close the glass panel at least twice. Finally, perform a basic setting adaptation on the sunroof drive system.
