Technical Background

Car Net®: No Green Light at PDI.

Service

On 2020/2021 vehicles equipped with Car-Net® 2.0 while performing the PDI:

Once you take the vehicle out of transport mode, it may take up to 30 minutes for the system to come on line. The green light is an indicator that the vehicle has made a good connection.

No green light ON indicates that no connection was established. All vehicles equipped with Car-Net® 2.0 will need the green light ON, prior to being delivered to the customer.
