

TOW ASSIST™
ABS & SWAY MITIGATION SYSTEM

TOW WITH CONFIDENCE.

ELECTRIC ABS BRAKES

- Decreased chances of jack-knifing trailer during panic braking
- Optimized braking performance by increasing output from all brakes
- Increased tire life by reducing flat spotting

TOWABLE ODOMETER

- Built-in trailer mileage tracking accessible via Bluetooth® app
- Identify critical maintenance intervals to avoid unwanted breakdowns
- Provide platform for efficient management of rental or fleet trailers

SWAY MITIGATION

- Keeps trailer in-line with tow vehicle during high winds, lane changes, or evasive maneuvers
- Intuitively reacts with appropriate braking to ensure stability without driver input
- Helps maintain trailer stability in the event of an unbalanced load
