Model(s):	ALL CUMMINS DIESEL ENGINES EQUIPPED WITH DEF.
Model Year(s):	ALL MODEL YEAR(S)

The engine start up and units function with empty DEF tank,

All units with Cummins diesel engines equipped with DEF.

INSTRUCTIONS

If the vehicle runs out of DEF:

Vehicles that use DEF will have indicators on the dash that will alert the driver of the quantity of DEF on board. A gauge similar to a fuel gauge will indicate the level of DEF.

There will be a DEF low level warning lamp that will illuminate when DEF is low.

If the vehicle would run completely out of DEF, vehicle power will be de-rated and speed will be reduced to approximately 15 MPH. Once the tank has been refilled the engine will resume normal power levels.

Jayco's sole obligation under our limited warranty is to repair or replace defective materials and/or workmanship deemed our responsibility as determined by Jayco in our sole discretion. Jayco reserves the right to use new and/or remanufactured parts or materials of similar quality to complete any work, and to make parts and/or design changes as appropriate without notice to anyone. Jayco designs and/or materials changes are done without obligation to incorporate such changes in previously manufactured product. Jayco makes every reasonable effort to ensure field remedies will not adversely affect performance and/or safety of the unit. This field remedy is not intended to extend to future performance of this RV, or any of its materials, components or parts beyond the standard warranty period. The RV owner's obligation to notify Jayco, or one of its independent, authorized dealers, of a claimed defect does not modify any obligation placed on the RV owner to contact Jayco directly when attempting to pursue remedies under state or federal law. Jan. 2019.
