Part Number: 68442216A\$, 68442217A\$, 68442218A\$, 68442219A\$, 68442228A\$, 68442229A\$, 68442230A\$, 68442231A\$

Part Description: Glass Run Window Seal

Issue For an issue of glass squeaking or making noise when rolling up/down. ~

Description: Verify that glass run seal is clear and clean of any dirt or debris, and make sure glass is in window track/window glass run seal, then roll window up and down fully 3 times to verify the issue repeats.

Clean window track, window, and glass run seal if dirt or debris is found. If window is not in window track or inside glass run seal, repair condition using original glass run seal if no deformities are found in the seal. If glass run seal is deformed, replace glass run seal and ensure seal is fully installed in door channel prior to glass reinstallation.

If lubricant is needed during repair, use Mopar part # 04773427A\$ or 05019059A\$ (approved Krytox lubricant for weatherstrips).

For additional information contact FCA Redacted Content. If no response in 15 minutes, proceed with repair.
