Special Tools & Equipment

New Release of Shop Equipment

Technical Support

2004

USA Only

Porsche Special Tools & Equipment is excited to release the single post jack VAS 6931. In keeping with our commitment to our dealer network, we have learned that there was an important piece of equipment that was left out of our minimum equipment line up from back in the early 2000's. Since that time we have released several attachments that go with this jack and it has made it near impossible for the dealers to use the attachments properly.

Starting CW22/20 Monday May 25, 2020 the VAS 6931 will be released as an auto-ship. The VAS 6867 will be released at the same time, but will ship at a later date. If you have any questions about the VAS 6931, please feel free to contact Porsche Special Tools & Equipment at askthetoolguy@porsche.us
