

Campaign code:
L636-A.02.20

Campaign Name:
Wheel hub housing verification

Model:
Urus

Model year:
MY 20

Special or limited editions:
All versions

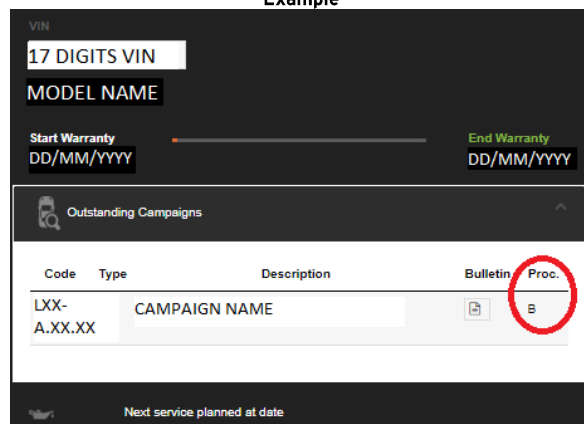

Markets:
All markets except South Korea

VIN identification:
From LLA07620 to LLA07750

Important: before proceeding with the repair, connect to the warranty portal and use VIN Info to check that

- The vehicle is actually affected by the instructions given in this bulletin; some vehicles may not be, even when their VIN is included.
- Procedures are identified by a letter (e.g. A, B or C....etc., whose differences will be explained later in this bulletin); make sure that the spare parts corresponding to the assigned procedure are used.

Example

Code	Type	Description	Bulletin	Proc.
LXX-A.XX.XX		CAMPAIGN NAME		B

NOTE:

Procedure A will be available only when the instructions require a preliminary check to be performed to determine whether or not the vehicle actually needs updating.

Network information notice:

As a result of continuous product monitoring, Automobili Lamborghini S.p.A. would like to analyse an exact right front wheel hub from a specific batch of production.

Operations:

The following instructions include the steps:

- Step A: 0.1 h
- Step B: 5.2 h

Solutions for the network:

Update the car as stated in the instructions.

IMPORTANT!

For both above operations (A and B) it is mandatory to attach in the Service claim a clear picture of the label (see example below).

Example

Replacement parts:
Operation B:

P/N	Description	Q
4M0407242M	STEERING KNUCKLE	1

Management of replaced parts:

IMPORTANT!

If the prescribed serial number is found, please do NOT TOUCH any bolt or screw of the hub support assembly.

Store properly and tagged the parts replaced with bar code form for their identification during Area Manager visits.

Labour:

- Step A: 0.1 h
- Step B: 5.2 h

Bulletins superseded:

None.

Warranty instructions:

To request reimbursement for the corrective action performed, access the Warranties section of the Lamborghini Portal and follow the "Campaigns" entry instructions in the W.Claim manual which can be downloaded from the Portal.

Select the required campaign and proceed with entry, carefully reading the options present in the alert displayed by the system (see example) and select the option performed on the vehicle.

Depending on the option performed, the reimbursement will be structured in the following manner:

- OPTION A - Wheel hub housing label inspection
- OPTION B - Wheel hub housing replacement

WARNING!

Attach all documents generated during the work carried out as evidence of the work itself, for instance workshop orders, diagnostic protocols etc. If one or more of these is missing it may lead to a rejected reimbursement request.

Fill out the Service and Recall Campaign section in the warranty booklet, which is shown in the figure below.

Tools/Materials required

Cod.	Description	Q
n/n	n/n	0

Operation A

Preliminary operations:

1. To access the serial number of the right hub holder it is necessary to raise the vehicle.

To perform this operation, follow the instructions given in the workshop manual at the following path:

00 General Information → 00 General Information → Raising the vehicle → Description

2. Find the serial number of the right hub holder located on the front of the component.

Check the exact correspondence with the serial number:

291019
R9R0735501L

If the serial number corresponds, the hub holder must be replaced, proceeding with the operation B as described in the following paragraphs.

If the serial number does not correspond to the one indicated, ignore the following operations and consider the activity completed.

IMPORTANT!

It is mandatory to attach in the Service claim a clear picture of the label.

Operation B

Work instructions:

3. To access the Hub Housing on Front Suspension, it is necessary to remove the Complete Front Right Suspension and the Front Suspension Guide Arm, Right Side.

To perform these operations, follow the instructions given in the workshop manual at the following paths:

05 Suspension system → Front Suspension → D - Complete Front Right Suspension → Disassembly/Assembly

05 Suspension system → Front Suspension → U - Front Suspension Guide Arm, Right Side → Disassembly/Assembly

4. To install the new hub housing, follow the removal procedure in reverse order.

IMPORTANT:

The documents which must be provided with the warranty request are:

- Produced Repair Order
- Picture of the wheel hub support label

Failure to follow these procedures could lead to the request being rejected.
