**Porsche Approved Taycan (9J1) In-Ground Lifts**

Technical Support

2009

USA Only

Porsche Special Tools & Equipment through research and working with manufacturers of vehicle lifting equipment has approved two in-ground lifts for the Taycan. These two lifts that are attached to this bulletin meet the measurement requirements needed to lift the New Porsche Taycan and allow the electric drive motor battery to be removed while the vehicle is on the lift. These two lifts are the only approved in-ground lifts for this type of work when building a new facility or upgrading a facility to the next generation of dealership design. If you have any questions about these two lifts, please be sure to reach out directly to Porsche Special Tools & Equipment at [askthetoolguy@porsche.us](mailto:askthetoolguy@porsche.us)
