# **Latest Vehicle Concern Fixes**

#### **POWERTRAIN**

2020 Discovery Sport equipped

with AJ20P4

Tip	in He	esitation	

## Customer Voice:

- There is a lag when accelerating while rolling.
- The vehicle is sluggish.

### Technical Description:

- No DTCs are stored, PCM and TCM software are at the most current level.
- No error state is identified with the vehicle.

# Status:

- This topic is in the early stages of investigation.
- Please raise an EPQR and attach a current session file to the report.
- Gather as much detail about what conditions the hesitation occurs under and include that detail in the EPQR.
