

# WLD1 Workshop campaign - Supplying wheel spacer

Version 1

## **WLD1 Workshop campaign - Supplying wheel spacer**

### **Overview**

In the event of a flat tire, the spare wheel supplied with the vehicle must only be fitted on the front axle. If tire damage occurs to a wheel on the rear axle, the relevant front wheel must first be fitted on the rear axle and then the spare wheel on the front axle.

A wheel spacer is required in order to fit the front wheel on the rear axle.

This wheel spacer was not assigned to the affected vehicles due to an incorrect parts list.

To ensure that the front wheel can be fitted on the rear axle in the event of a flat tire, the wheel spacer must be placed in the affected vehicles.

#### Placing wheel spacer in the spare wheel bag in the vehicle:

Please make sure that the wheel spacer is placed in the spare wheel bag (inside of the rim).

Within the market area for which you are responsible, please arrange for this measure to be carried out the next time the affected vehicles come into the workshop.

<b>Model type</b>	911 GT3 RS (991)
<b>Model year</b>	2016
<b>Number</b>	1

#### Parts required

<b>Part No.</b>	<b>Designation</b>	<b>Quantity/vehicle</b>
99736160593	Wheel spacer	1
