Customer statement / workshop findings

Winter wheels and tyres required for Bentayga Speed, Refer to the Technical background section of this TPI for additional information

Technical background

22 inch wheels are restricted, this is related to emission homologation, the 22 inch wheel is the only wheel type which can be fitted at the time of production to the Bentayga Speed model

Bentley Motors only offer a 21 inch winter tyre, the 21 inch Winter tyres can be supplied by Bentley Motors, without invalidating the emissions type approval

Customers/Retailers can fit 21" all-season / winter tyres and a relevant Bentayga rim however this must be done post registration AND post-handover to the customer

Refer to Elsa Pro winter tyre information

Production change

Not applicable

Measure

Refer to the Technical background section

Parts information

Refer to ETKA parts catalogue
