**Freightliner Parts  
Technical Bulletin**

## General Information

In order to reduce part proliferation, and maintain relevant stock in the Parts Distribution Center (PDC), service bumpers were created. While ordering a production bumper replacement, order one of the eight service bumpers from **Table 1**, and relevant interchangeable parts from **Table 2** based on vehicle configuration. A service solution would include service bumper (1), bezel (1), screen (1), LH/RH wheel well fairing (2) and fastener kit (1). See **Table 3**.

Bumper Crossover Parts List	
Production Bumper Part Number	Service Bumper Part Number
A21-29311-000, A21-29311-001, A21-29311-002, A21-29311-003	A21-29370-000
