***** Campaign Summary*****

In 2005, Nissan launched a Voluntary Service Campaign on certain 2004 Model Year Nissan Sentra and 2004-2005 Model Year Nissan Altima vehicles equipped with 2.5 Liter engines to inspect and, if necessary, replace the power valve screws with new ones. There is a possibility that the power valve screws located in the intake manifold may become loose. If this condition occurs the Malfunction Indicator Lamp (MIL) may illuminate and unstable engine idling or power loss may occur.

Parts specified for this campaign are no longer available through Nissan. This customer service campaign and customer reimbursement for these repairs are no longer available.

***** What Dealers Should Do *****

1. Service Com will deactivate **P5202** on any unrepaired VINs on **July 16, 2020**. No further dealer action is required.
