

# Engine Oil Overview Chart: Specialty engine oils

Audi High Performance Genuine Engine Oil 5W-40 (502.00 / 505.00) is the most commonly used engine oil for servicing Audi vehicles, however there are four additional oils engineered to meet specific application requirements. This chart is designed to help parts and service teams recognize the applications outside of 5W-40. As always, please reference ElsaPRO for the latest information.
