

Service Bulletin

Bulletin No.: 20-NA-079

Date: July, 2020

TECHNICAL

Subject: Front Brake Squeal Noise Heard During Light Brake Pedal Application

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Buick	Encore GX	2020	2020	SOP	March 20, 2020	All	All

Involved Region or Country	North America Only
Condition	Some customers may comment on hearing a squeal noise originating from the front of the vehicle during light brake pedal application.
Cause	The squeal noise can occur during light brake pedal application at low vehicle speed when the brakes are first applied or lightly applied. Occasionally this noise may appear from the front, while in Reverse, after a period of non-use such as overnight, or cold brakes and/or in high humidity conditions.
Correction	Replace the front brake pad kit with shims that have been released to correct this condition.

Service Procedure

If you encounter a vehicle with the above concern, replace the front brake pads and sensor. Refer to *Front Disc Brake Pads Replacement* in SI.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
