

SSM 49091

Title:

2019-2020 Edge/Nautilus - False Traction Control/Yaw Control Activation

Text:

Some 2019-2020 Edge/Nautilus vehicles may exhibit a false traction control or yaw control event. This may be due to software in the anti-lock braking system (ABS) module. To correct the condition, reprogram the ABS module using the latest software level of the appropriate Ford diagnostic scan tool. For claiming, use causal part 2B373 and labor times in Section 02 of the Service Labor Time Standards (SLTS) Manual.

Vehicles:

2019-2020	Edge (CD539N) (DQ)
2019-2020	MKX/Nautilus (D9)
