Purpose for Parts and Accessories Bulletin

To inform dealers of:

- Additional Screamin' Eagle® 128/131 Stage IV Kit and 131 Crate Engine information.

Markets Affected

U.S. (except California), Canada, Australia, and New Zealand markets.

Key Messages

- Screamin' Eagle 131 Crate Engine Environmental Protection Agency (EPA) approval to be sold in U.S. 49-States.
- Updated fitment on Screamin' Eagle 131 Crate Engines.
- Calibrations for Screamin' Eagle 128/131 performance products planned for release by end of January.
- Dealership ordering process for Screamin' Eagle 131 Crate Engine.

Summary and Parts Affected

Screamin' Eagle 131 Crate Engine:

- The recently launched Screamin' Eagle 131 Crate Engines are approved for sale in U.S. (except California), Canada, Australia and New Zealand. Refer to Table 2.

Table 2. Screamin' Eagle 131 Crate Engine

Part No.	Type
16200339	Oil Cooled Black & Chrome
16200340	Oil Cooled Black & Gloss Black
16200521	Twin-Cooled™ Black & Chrome
16200522	Twin-Cooled Black & Gloss Black

Fitment update on 131 Screamin' Eagle Crate Engine:

- Fits 2017-2020 Touring models equipped with either air/Oil Cooled or Twin-Cooled Milwaukee-Eight engines.
 - **Does not** fit Trike models.
- All model years require separate purchase of Head Pipe (Part No. 65600177) or Screamin' Eagle High-Flow Exhaust System (Part No. 65600329, 65600330, 65600331, 65600332).
- 2017-2020 Air/Oil Cooled models require separate purchase of Fan Assisted Oil Cooler (Part No.62700204).
- 2017-2018 models require Screamin' Eagle High-Capacity Clutch Plate Kit (Part No.37000258).

NOTE

All models require Electronic Control Module (ECM) recalibration with Screamin' Eagle Pro Street Tuner for proper installation.

Screamin' Eagle Calibrations for 128/131 Stage IV kits & 131 Crate Engine:

- The Screamin' Eagle team expects to have all necessary calibrations for Screamin' Eagle 128/131 Stage IV kits and the Screamin' Eagle 131 Crate engine available for download by January 27, 2020. If this date changes, Harley-Davidson will communicate accordingly.

Dealer ordering process for Screamin' Eagle 131 Crate Engine:

- The Screamin' Eagle 131 Crate engines require other "sold separately" parts to be ordered alongside the Crate engine. When a dealership is ready to order the 131 Crate engine, the dealership is required to call Dealer Services to confirm they have ordered all required "sold separately" products. Dealer Services confirm the accuracy of the order and place the order for the Crate engine.
- Canadian Dealers place order for 131 crate engine using "SW – Non-Warranty" order type on UltraComm – **Do not** enter a Vehicle Identification Number (VIN) as this is a Over The Counter (OTC) engine, order all required "sold separately" products separately. The dealer will be contacted by the Technical Service Lead to confirm that all required parts have been ordered. Once confirmed, the order for the 131 crate engine will be processed.

NOTE

*As this OTC engine comes with its own unique crankcase number and **no** core charge applies.*

Questions

Direct all other questions to the Dealer Services Representative.
