Special tools (P/N 900029716) for inserting oil seals into the gearbox

Dear Dealer Network,

For your information, listed below are new special tools that are required for servicing and maintaining Maserati vehicles.

NOTE: Do not place orders for these tools, they will be sent automatically.

These new special tools are required when servicing ZF-8HP gearboxes that are installed on all Ghibli, Levante and Quattroporte models.

The kit contains two tools needed to position the front and rear oil seals in the gearbox.

The kit is composed as follows:

You will find all references on how to correctly use these tools in the Workshop Manual section 03 GEARBOX, in Tech Docs on ModisCs+.

If you have any questions, contact your Regional Aftersales Manager or Maserati Technical Support.

Thank you for your continued support and cooperation.
