Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
All	1997- 2020	All	All	All	All

### Revision Table

Instance Number	Published Date	Version Number	Reason For Update
2031562/5	9/4/20	45-09-05TT	To include additional model year applicability.
2031562/4	7/31/20	45-09-05TT	To include additional model year applicability.
2031562/3	9/27/17	TT 45-09-05	Update to latest standard.
2031562/1	9/18/09	TT 45-09-05	Original publication

## Technical Background

In some cases, the Electronic Stabilization Program (ESP) function test may not end on its own creating a 01486 fault code in the Antilock Brake System (ABS) -~~J104~~.

## Service

The only way to end the test is to enter basic settings group 103 under address 03 – ABS. As soon as 103 is entered, the display should read “function test inactive” indicating it has been switched OFF. The “Activate” button **should not** be used.

Check ABS fault codes to see if the test was completed fully. If not, repeat using basic settings 93 or the test plan under Guided Functions.
