

# TECHNICAL ACCESSORY SOFTWARE AVAILABILITY CONCERNS & INFORMATION

## AFFECTED MODELS:

**2019-2020 790 ADVENTURE and 790 ADVENTURE R  
2020 790 ADVENTURE R RALLY**

## INFORMATION AND PROCEDURE FOR REPAIR:

This bulletin supersedes KTB2012R1 dated April 16, 2020 because the 2020 790 model software purchase and installation errors have been resolved as of May 27<sup>th</sup>, 2020.

For the 2019 and 2020 790 ADVENTURE and 790 ADVENTURE R models, KTM has enabled the ability to purchase and install the Quickshifter+ technical accessory software extension again using only the XC\_2 diagnostic tool.

On certain 2020 790 ADVENTURE R RALLY models, it is possible that the Cruise Control and the Quickshifter+ features are not activated as delivered from production. Please do not purchase the Cruise Control and do not purchase the Quickshifter+ for this model as the software purchases are not refundable. It is necessary to activate these two features during PDI and before customer delivery. This can be done by using the XC\_2 diagnostic tool in the Technical Accessories menu, select the software icon, click Update, click Activate.
