TECHNICAL OPERATIONS

SUBJECT: TRAILER BRAKE CONTROL HARNESS

This Pitstop provides information related to 2021MY~ Kia Telluride vehicles equipped with 7-pin tow hitch harness (P/N: S9F67 AC500) either port or dealer installed. The Kia tow hitch harness comes complete with an additional male 4-pin electronic brake control module harness (P/N: S9F67 AC060) that is not installed at the port or dealer during the tow hitch and harness installation. The 4-pin electric brake harness, caution card, and installation instructions are placed into the vehicle's glove box for the consumer if towing a trailer equipped with an electronic braking system.

Glove Box Items:

Tow Hitch I-Sheet	Trailer Brake Harness	Caution Card
		

- Confirm items have been installed in the glove box after tow hitch install prior to customer sale.
- If the dealer or customer is installing an electric brake control module, make sure it conforms to your state's regulations and that it is properly installed and operating correctly.
- When installing an electronic brake control module (refer to step 12 on the Tow hitch Installation Sheet in the glove box with the 4-pin male E-Brake harness).
- Refer to the applicable Installation Sheet, owner's manual and KGIS for towing and trailer requirements.
