Product Change Notice - 08 Series Baggage Door slam latch backer fasteners

Dear Valued Customer:

Please be advised LCI intends to change fasteners for the 08 Series Baggage Doors slam latch backer plates from rivets (Fig. 1A) to screws (Fig. 2A).

The change is being made to improve ease of installation of the backer plate to the inner frame at the plant and serviceability in the field should a latch become damaged. The change affects slam latch standard plastic backer plate (PN 227099) and metal backer plate (PN 342215).

The screws passed the same engineering testing as the rivets for durability. There is no other change in fit, form or function with the fastener change. There is no price change and no part number change for the baggage doors. The rivet PN is 213083 and the screw PN is 807940 for service. The change is expected to take place on a running basis mid to late October.
