Idle Stability Complaints

19/20 MY Range Rover, RR Sport,
Defender equipped with AJ20P6

Customer Voice:

- The engine speed will jump up at idle.
- The engine will shut down at a stop and restart immediately when pressing the start button.

Technical Description:

- Several idle quality improvements have been made to the PCM software.

Status:

- The revised software is available in Pathfinder 295 or later.
- No manual patch is required.
- The TOPIx Workshop Manual (WSM) symptom diagnostic chart will be updated to reflect the software availability.
