Date:	12 th March 2020

This Service Campaign Bulletin will cover:

1. Overview
2. Parts Information
3. Procedure
4. Warranty Information
5. Affected Vehicles

1. Overview

Through continuous product quality monitoring, it has been identified that a number of McLaren Senna GTR vehicles may have insufficient adhesion on the rear wing in the upper end plate area.

2. Parts Information

The parts below are required to action this repair, which can be sourced locally in all markets.

Part Number	Part Description	Quantity Required
N / A – source locally	3M DP490 adhesive	As required

3. Procedure

To carry out the required rework, the re-application of adhesive is required.

Document SCB 15 A 002 WI (attached with this Bulletin) contains the relevant work instructions and care points to ensure the repair is carried out correctly, bringing the vehicle up to the current manufacturing standard.

Extract from SCB 15 A 002 WI – Application area of adhesive (6)

4. Warranty Information

Submit a claim to the McLaren Warranty department following completion of the work, using the following details.

Please ensure you include a photograph of the part label for the rear wing in the warranty claim, which can be found on a sticker on the left side of the rear wing once the end plate has been removed.

Example:

Description	Repair Time
McLaren Senna GTR - Rear Wing Rework	3.5 hours

5. Affected Vehicles

Your Regional Aftersales Manager will contact you with a list of affected vehicles.

If you have any questions, please speak to your Regional Aftersales Manager.

Best regards,

The information contained in McLaren bulletins is for internal use only by McLaren Authorised Retailers and must not be published on external websites or social media forums etc.

Part numbers listed in McLaren bulletins are for reference only. Always check with the parts department to verify the latest part numbers.

All bulletins (Information/Campaign/Recall) issued by McLaren Automotive Limited ("McLaren") are intended only for use by technicians who have attended McLaren technical training courses. McLaren trained technicians have the equipment, tools, safety instructions and the know how to perform the job properly and safely. McLaren bulletins are written to inform McLaren technicians of conditions that may occur on some McLaren vehicles, or to provide information that could assist diagnosing a McLaren vehicle.
