

Preliminary Information

PIC6279B Installation of Rear 3-Piece Blade Spoiler

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Chevrolet	Camaro	2017 - 2021	All	All	LT1, LGX, LTG	All

Involved Region or Country	US & Canada
Additional Options (RPO)	Equipped with package RPOs A1X, A1Y, or GM Accessory Blade Spoiler RPOs 5ZU, 5ZV, or 5ZZ
Condition	Some technicians may be performing a Pre-Delivery Inspection (PDI) on a 1LE Camaro, equipped with RPO A1X or A1Y. On this vehicle, a 3 piece rear spoiler must be installed. Some technicians may also be adding one of the Dealer Installed Accessory RPO 5ZU, 5ZV, or 5ZZ "Blade" spoilers to the vehicle. Dealership personnel may have difficulty sourcing the adhesive called out in the instructions that is used to secure the smaller rear spoiler "winglets" to the quarter panels of the vehicle. The instructions list a DOW product called Betaseal U400 HV. Typically, this product, if it can be obtained, can only be found in cases of 10-12 tubes.
Cause	Dealership personnel may have difficulty sourcing the adhesive called out in the instructions.

Correction:

In addition to the DOW Betaseal, dealership technicians are also able to use a 3M product called Windo-Weld. It is a urethane product (PN 08609) that works well to adhere these

wings to the vehicle.

Either adhesive is acceptable for this usage.

Note: Installation time for the wings is already included in the PDI time for this vehicle. No additional time is needed.
