Case Number: S2008000147

Release Date: x

Symptom/Vehicle Issue: Ambient Air Temperature Connector Loose. MIL Illuminated, DTC P0070-15 and P0073 Active

Discussion: The customer will notice that the MIL is illuminated on the cluster. The ambient air temperature may be missing.

Diagnosis: Scan the vehicle for DTC's. If Active DTCs P0070-15: Ambient Air Temperature Sensor Circuit-Circuit Short to Battery or Open; P0073: Ambient Air Temperature Sensor Circuit High are found. The concern is likely caused by a loose connector at the Ambient Air Temperature Sensor located behind the front fascia.

Ambient Air
Temperature Sensor
Connector D1504A

STAR ONLINE PUBLICATION

Repair: Fully disengage and reengage the connector to confirm it is fully seated.

Verification: Clear the DTC's and verify the ambient temperature sensor data is now showing a reading. If the issue is still present, perform the DTC flow charts.
