Subject	**Inspection Request** 2021 TLX Turbo Hose Inspection						

To: All Acura Sales and Service Managers
From: Parts and Service Division
Re: **Inspection Request** 2021 TLX Turbo Hose Inspection

If you receive this *i/N* message, you may have and/or be receiving the vehicles that are affected by this request. Please check to see if you have VINs on the list

American Honda (AHM) understands certain 2021 TLX have left the factory without the correct procedural inspection of the intercooler turbo hose. Suspect units were delivered to your dealership prior to the inspection. Please inspect the turbo hose of VINs from the list that may be in your inventory.

Please click on the links below for the **affected VINs** and **Inspection and Repair Procedures**.

Click [here](#) to view affected VINs.

Click [here](#) to view Inspection and Repair Procedure

Please notify the inspection results to AHM Technical Research & Support (TRS) at trs@ahm.honda.com. Warranty Information will be provided at that point.

If your affected unit was traded to another dealership before you could inspect it, please notify TRS (trs@ahm.honda.com) immediately.

Thank you.
