

WLA3 Workshop campaign - Replacing front left pressure hose (bottom)

Version 2

WLA3 Workshop campaign - Replacing front left pressure hose (bottom)

Overview

There is a possibility that a pressure hose on the charge-air cooler that does not meet the required specifications was installed on the affected vehicles.

Due to an incorrect weave structure, this pressure hose can cause a leak in the charge air system over the service life of the vehicle.

If this happens, there will be a loss of power and the Check Engine light will come on in the instrument cluster.

To prevent this from happening, the pressure hose on the charge-air cooler on the affected vehicles

must be replaced by a pressure hose that meets the required specifications.

Model type	Cayenne S (9YA)
Model year	2019
Number	105

Parts required

Part No.	Designation	Quantity/vehicle	Parts return*
PAB14573710	Front left pressure hose (bottom)	1 ea.	No

* The parts must be stored until such a time as the **related warranty or campaign claim has been credited**. If a **barcode is generated** with the credit note, the affected part must be sent to Porsche AG as usual. If no barcode is generated with the credit note, the part can go directly into the genuine remanufactured parts process or be scrapped.

Ordering required parts

Parts may be ordered as needed without the need for a PRMS ticket or recall release email.

Warranty processing

Validity:

This workshop campaign will be carried out up to 06.10.2025 and will be closed by the specified date. Please note that warranty claims can only be processed before this date.

Scope 1:

Damage code	WLA3 66 000
Repair code	2
Working time	110 TU

Please enter the campaign that was carried out in the Warranty and Maintenance booklet for the vehicle.

Porsche Mobility

If requested, the mobility of the affected customer can be assured by offering a suitable replacement vehicle.

Please invoice this additional service with the campaign scope via WWS.
