VIN range:	Refer to the separately published list of affected Vehicle Identification Numbers (VINs)	
Applicable to:	All Dealers	
Distribute to:	After Sales Manager Service Manager Sales Manager	Warranty Staff Technician(s) Parts Staff

Reason for this Service Action

Aston Martin has found that the clip for the de-gas hose has not been correctly installed on some vehicles.

Do the procedure below to inspect the clip for the de-gas hose and if necessary, install the clip into the correct position

Workshop Procedure

This workshop procedure has two parts:

- Part A: Inspect the position of the clip for the de-gas hose
- Part B: Install the clip for the de-gas hose into the correct position

Part A: Inspect the position of the clip for the de-gas hose

1. Open the bonnet.
2. Examine the clip for the de-gas hose and make sure it is in the correct position (refer to Figure 1).

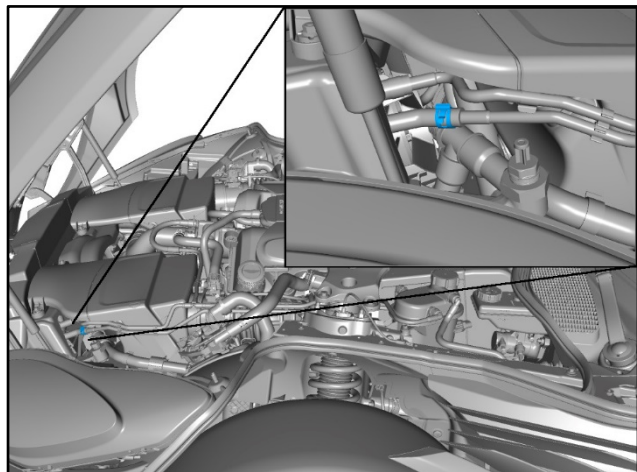

Figure 1

This image shows the clip for the de-gas hose installed in the correct position (refer to Figure 2).

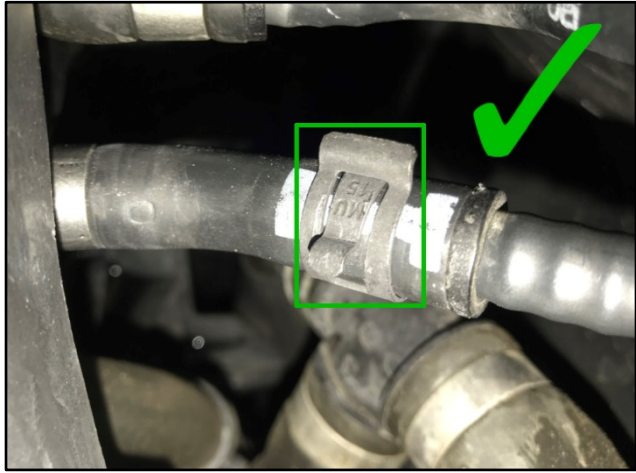

Figure 2

This image shows clip for the de-gas hose installed in the incorrect position (refer to Figure 3).

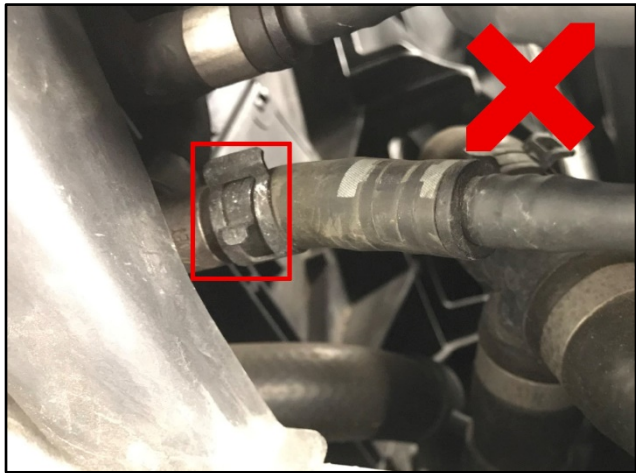

Figure 3

Note: If the clip for the de-gas hose is incorrectly installed, you must do Part B: Install the clip for the de-gas hose into the correct position.

Part B: Install the clip for the de-gas hose into the correct position

1. Release the clip for the de-gas hose (refer to Figure 4) and move it into the correct position (refer to Figure 5).
