

Bulletin No.: PIT5783
Published date: 10/1/2020

Preliminary Information

PIT5783 Faint High Pitch Squeal at Start-Up Cold Start Only in Front of Vehicle

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Cadillac	XT5	2020 - 2021	All	All	LGX	All
Cadillac	XT6	2020 - 2021	All	All	LGX	All
GMC	Acadia	2020 - 2021	All	All	LGX	All

Involved Region or Country	North America
Additional Options (RPO)	LGX
Condition	There faint high pitch squeals the engine for about 15 sec at cold start. The noise can be heard if you are in front of the vehicle at start-up during a cold start.
Cause	This is a normal condition due to the fact that the fuel pump pressure is raised and retard of the spark for the initial Catalyst Light Off (CLO). This is required in order to meet the Emissions on the vehicle.

Correction:

No repairs to be made, operating as designed.
