Subject: Detroit Connect Portal: Fuel Analytics Issue

Dear Detroit™ Connect Safety Customer,

You are receiving this communication as a Fuel Analytics customer. We have recently become aware of an issue where some trips are not populating in the Vehicle History Trips page and which affects both the Fleet Fuel Analysis and Fuel Economy calculations for some customers. If you have experienced this issue, we are writing to let you know we are currently working towards a resolution. Other parts of the Detroit connect Portal are not affected by this issue. We will send additional information as it is available.

The Detroit Connect Team
