Case Number: S2024000007

Release Date: 10-29-2020

Symptom/Vehicle Issue: Customer Indicates There Is A Whistle Noise After The Vehicle Is Turned Off.

Discussion: This noise can be heard from the dash after shutting the vehicle off. Engineering is aware of this condition, an improvement to the system to reduce or eliminate the whistle noise is being investigated. Replacing components for this condition will not eliminate the noise at this time. An update for this condition will be provided near the end of this quarter or the beginning of the first quarter.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
