P4 BPHS code 523450/11 Nov 10, 2020 4:49 PM

got a P4 BPHS system throwing a code 523450/11 (PCU compressor-internal fault), the manual says " root cause unknown " there's no troubleshooting for it and the PS compressor wont engage, VIN LS4109.... any input would be very much appreciated....

[Bergstrom - NITE OE](#) go to this website and download the T/S manual. A VIN would be helpful as well.

Re: P4 BPHS code 523450/11 Nov 12, 2020 3:18 PM

I was referring to the symptom diagnostics on page 16 of the manual. Sorry for the confusion. Glad to see that you got it fixed up.

Re: P4 BPHS code 523450/11 Nov 12, 2020 3:07 PM

Tried resetting the compressor controller and PS ECU by completely removing power and all connectors, didn't help, after testing all powers, grounds and inputs I R+R'd the compressor controller which fixed it
