REVISION HISTORY				
Revision	Date	Purpose		
2	-	Revised title Revised header (Added MY) Revised <i>Warranty</i> (Added Claim Type)		
1	03/30/2016	Initial publication		

Customer states or Workshop findings:

- Cables are visible in the front or rear footwells, or in the spare wheel wells (Figure 1).
- No DTCs are stored.

Tip: It is not necessary to contact TAC for this issue.

Figure 1. Examples of visible cables.

Technical Background

The visible cables are connected to sensors that are only used during the production process. These cables are not used during normal vehicle operation and are not connected to the vehicle electrics.

Technical Service Bulletin

Production Solution

Cables will be stored under trim after the production process is complete.

Service

If the cables are visible and no DTCs are stored, simply push the cables under the trim. The cables are not connected to any circuits in the vehicle.

Warranty

Claim Type:	 110 up to 48 Months/50,000 Miles. If vehicle is outside any warranty, this Technical Service Bulletin is informational only. 				
Service Number:	5324
